ZEUSLAP Z14P 14" Portable Monitor

The ZEUSLAP Z14P portable monitor is a compact Full HD display with an IPS panel that expands your laptop's workspace without cluttering your desk. It features a 14-inch screen, a 16:9 aspect ratio, and 100% sRGB coverage, resulting in a clear and natural image. The device is equipped with two Full Featured USB-C ports and a mini HDMI port, allowing it to work with laptops, smartphones, and consoles (PS4, PS5, Xbox, Nintendo Switch). The monitor measures approximately 34 x 20.3 cm, and its slim design makes it easy to transport and use daily. It supports various display modes and rotates up to 270°, allowing you to easily adapt it to your current needs.

Metal construction and practical portability

The all-metal housing increases the device's durability, which is important when moving it frequently. This allows the monitor to better withstand daily use while traveling, in a bag, or in a backpack. The slim profile means the device doesn't take up much space, so you can conveniently

take it along with your laptop. The compact dimensions make it easier to organize your workspace, even in limited space.

One cable and you're set - convenient power supply

The use of Full Featured USB-C ports allows you not only to transmit video but also to power the monitor directly from your laptop. In practice, this means fewer cables and faster setup. In situations where the source device does not provide sufficient power, you can use the included charger. This flexibility makes the monitor suitable for both mobile and desktop use.

More possibilities thanks to additional ports

Two USB-C ports enhance usability by allowing simultaneous power delivery and video transmission or the connection of various devices. An additional mini HDMI port lets you use the monitor with equipment that doesn't support USB-C. This allows a single screen to be used in many scenarios—from office work to entertainment. This solution reduces the need for adapters and additional accessories.

An image tailored to everyday tasks

The IPS panel ensures stable colors and wide viewing angles, making it easier to work in various settings. Full HD resolution provides sufficient detail for working with documents, browsing the web, or watching movies. The matte finish reduces glare, ensuring the screen remains readable even in bright environments. This makes the monitor well-suited for use both in the office and beyond.

Flexible operating modes and settings

The ability to rotate 270° and various display modes allow you to adapt the screen to your current task. Extended mode increases your workspace, making it easier to work with multiple windows simultaneously. Portrait mode is ideal for coding, reading, or analyzing long content. The adjustable stand allows you to set a comfortable viewing angle, which directly translates to comfort during extended use.
