ZEUSLAP P16A 16" 144Hz Portable Monitor

The ZEUSLAP P16A 16" 144Hz portable monitor is a mobile display featuring an IPS LCD panel, Full HD 1920 × 1080 resolution, and a 144 Hz refresh rate, combining excellent image quality with ease of use in various conditions. It offers 100% sRGB color coverage, 300 nits of brightness, and a 1200:1 contrast ratio, resulting in a clear and sharp image for both work and entertainment. Thanks to its USB-C and mini HDMI ports, the monitor can be easily connected to a laptop, smartphone, gaming console, or other devices. Its slim design and 16.1-inch diagonal make it a practical solution for those who need an extra screen while traveling or outside the office.

Smooth image and fast response

The 144 Hz refresh rate makes the image noticeably smoother than on standard 60 Hz monitors. In practice, this means less motion blur during dynamic scenes, which will be appreciated by gamers as well as those watching movies or working with animations. A 3 ms response time minimizes motion blur, ensuring that on-screen movement remains crisp. These specifications allow the monitor to handle dynamic content more effectively and provide a more comfortable viewing experience.

Natural colors and wide viewing angles

The IPS panel provides wide viewing angles up to 178°, meaning the image remains clear even when viewed from the side. 100% sRGB color space coverage delivers vivid yet natural colors, which is important when viewing photos, videos, or working on graphics. A 1200:1 contrast ratio enhances detail visibility, especially in darker scenes. A brightness of 300 nits ensures the screen remains readable even in brighter rooms.

Portability and Convenient Design

The monitor is designed for easy portability and quick setup anywhere. The slim, approximately 10 mm thick chassis and light weight make it easy to carry in a bag alongside a laptop. The 16.1-inch diagonal provides a larger workspace than typical smaller portable monitors, resulting in a more comfortable work experience. This allows you to comfortably use the additional screen both in the office and on the go.

Wide compatibility and easy connection

The presence of USB-C and mini HDMI ports allows for quick connection of the monitor to various devices without complicated setup. The monitor works with laptops, smartphones, and game consoles, increasing its versatility. Support for modes such as DEX allows you to use your phone as a computer by displaying its interface on a larger screen. This solution works well both at work and for everyday use.

Versatile everyday use

The ZEUSLAP P16A can serve as an additional monitor for office work, a presentation tool, or a screen for entertainment. Built-in speakers allow for basic audio playback without the need to
