ZEUSLAP ZB156 15.6" Portable Monitor

The ZEUSLAP ZB156 is a 15.6-inch portable monitor with Full HD resolution (1920×1080), a 16:9 aspect ratio, and a matte panel that ensures comfortable viewing without glare. It offers 270 nits of brightness, a 1200:1 contrast ratio, and 60% sRGB coverage, making it ideal for everyday office and multimedia use. The monitor is equipped with two USB-C ports—one Thunderbolt (supporting both video and power), the other dedicated solely to power—and a mini HDMI 1.4 connector. The entire unit is housed in a slim, metal chassis approximately 11 mm thick, measuring 360 × 228 mm and weighing about 684 g, making it easy to carry and use in various locations.

Clear image for everyday use

The Full HD panel ensures good text readability and adequate image detail while working, watching movies, or gaming. A 1200:1 contrast ratio enhances the visibility of details, making content clearer, especially in complex scenes. 60% sRGB coverage means colors optimized for typical uses such as

office work, web browsing, and multimedia. A 4 ms response time (Tr+Td) reduces motion blur, resulting in smoother images in dynamic scenes.

Wide viewing angles and user comfort

Viewing angles of 89/89/89/89 (178°) ensure the image remains clear regardless of the user's position. This is particularly useful during teamwork or presentations, where several people are looking at the screen simultaneously. The matte finish further reduces glare, improving comfort in bright rooms. As a result, the monitor works well both in the office and on the go.

Portability and sturdy construction

The all-metal chassis increases durability and resistance to daily use. Its light weight (approximately 684 g) and slim profile (11 mm) mean the monitor fits easily into a bag alongside a laptop. The built-in stand allows for quick screen setup without additional accessories, reducing the time needed to prepare your workspace. This is a convenient solution for those who frequently change their work location.

Thoughtful Connectivity and Compatibility

The Thunderbolt USB-C port allows for simultaneous video and power transmission via a single cable, simplifying setup. The second USB-C port is used exclusively for power, offering greater flexibility across various usage scenarios. An additional mini HDMI 1.4 port allows you to connect laptops, computers, and consoles. This enables the monitor to be used as an additional work screen, a presentation tool, or a mobile gaming display.

Functionality for work and entertainment

The monitor works well as a workspace extension, making it easier to work with multiple windows simultaneously. The ability to work in mirroring or extended screen mode gives you greater control over how content is displayed. Support for mobile devices allows you to use your smartphone in desktop mode, increasing its functionality. Additionally, compatibility with gaming consoles means the monitor can serve as a portable gaming screen without the need for a TV.

Additional details and mounting options

The monitor is equipped with a 3.5 mm audio jack and built-in speakers, allowing you to enjoy audio without additional devices. Support for the VESA 75 × 75 mm standard enables mounting on a stand or arm if you need a more stationary setup. Intuitive control via a dial makes it easy to adjust settings such as brightness and volume. This makes everyday use of the monitor simple and convenient.

Included

- ZEUSLAP ZB156 Monitor
- USB-C to USB-C cable
- Mini HDMI cable
- USB to USB-C cable
- User manual
