R3,698

Neewer 660 PRO RGB 50W LED lamp: Modern Video Lighting

The 60W Neewer 660 PRO LED lamp provides a wide 120° illumination angle and a maximum brightness of 5000 lux at a distance of 0.5 meters. With a high CRI value of 97+ (TLCI 97+), you will achieve accurate color reproduction. The light-emitting side panel design and built-in diffuser (non-separable) provide softer light than the back-emitting panel, guaranteeing a new experience for gaming, YouTube video blogging, video vlogging, portrait photography and more.

Adjustable Hue, Brightness and Color Temperature

With hue adjustment from 0° to 360°, brightness from 0% to 100%, the color temperature of this lighting can be adjusted from 2500K (warm white) to 8500K (cold white). The LCD display on the rear panel of the lamp clearly displays the light settings, improving efficiency.

The product information provided is for reference purposes only. Technical specifications, photos, descriptions and prices may change without prior notice. The manufacturer and seller are not responsible for possible data discrepancies or typographical errors. We recommend checking the current information before purchasing.

17 Special Scene Effects

The lamp offers 17 special lighting effects, including Lightning, Paparazzi, Explosion, Burning Bulb, Welding, Color Temperature Flicker, Color Flicker, Color Temperature Pulsing, Color Pulsing, Police Car, Candlelight, Color Cycling, Color Temperature Cycling, Brightness Cycling, Screen, Fireworks and Party. These scene effects also allow you to adjust brightness, color temperature, frequency and other settings, meeting your photographic needs in different scenes.

App Support

The lamp allows you to temporarily save 2 groups of light settings, control 1-8 groups of lights, add presets to favorites, and adjust color temperature, brightness, HSI and scene modes using the knobs on the back panel or by downloading the NEEWER app from the App Store or Google Play for easy operation. Compatible with Android 4.3 or iOS 11.1 and later versions.

Power and Installation

The lamp can be powered in two ways - with a power adapter (included) or two NP-F batteries (not included). A mounting bracket allows for quick tripod mounting, and a carrying bag stores and protects the lamp and accessories for convenience when shooting and recording on the go.
