

Petkit Eversweet Solo 2 smart pet fountain/drinker

Model: SOLO 2

Manufacturer: PETKIT

EAN: 6973293808896

Product Code: 884142

R1,995

Petkit Eversweet Solo 2 smart pet fountain/drinker.

The Petkit Eversweet Solo 2 mimics the natural flow of water, effectively encouraging your pet to use the drinker. Thanks to the 3-stage filtration, the water is purified from all kinds of impurities, and you can be sure that your pet drinks clean and fresh water. In addition, the refined design ensures efficient operation of the device. You also don't have to worry about annoying noise - the drinker generates a noise level of just 25 dB. In addition, the Petkit app will allow you to manage the device's operation and monitor its status.

Safety of use

The Petkit Eversweet Solo 2 has a wireless 3.0 pump that uses magnetic induction power technology. It eliminates any exposed wires for added safety. It also has an anti-dry-out protection.

Effective dirt filtration

An improved filtration system thoroughly removes impurities, so your pet always has access to clean and fresh water. The high-density filter removes hair and dust, while activated carbon with coconut shells eliminates odors, chlorine and improves the taste of the water. Meanwhile, the resin filter eliminates heavy metals and protects your pet from urinary tract diseases.

Petkit app

Download the Petkit app and gain full control of the Eversweet Solo 2. All you have to do is pair the device with your smartphone via Bluetooth. From it you can monitor the amount of remaining water in the tank and the status of the filter. There are also 3 modes of operation. Smart defaults to pumping water every 3 minutes, Normal delivers water at all times, and Night allows the device to run without light indicators on. In addition, a new update allows remote control of the fountain if at least one PETKIT product is the main unit.

Thoughtful design

Maintenance of the drinker will not be a problem for you. The modular design allows for easy disassembly and thorough cleaning, and the detachable waterproof base makes refilling easy. Thanks to the 2-liter tank, you only need to refill the water every 8-10 days, and the quiet operation of the device (25 dB) will not disturb either household members or pets.

Included

- drinker
- base with USB power cable
- filter 3.0
- wireless pump
- cleaning brush
