Uni-T LM600A Laser Rangefinder

The LM600A is a laser rangefinder equipped with a 2.0" external display that allows results to be displayed simultaneously on two screens during measurement. The device is designed for use in golf, construction, civil engineering, forestry, and installation and maintenance work. Thanks to its 6x optical zoom and high measurement precision, it performs well in both field and technical work, offering additional modes such as angle, height, area, and golf modes.

Included

- Laser rangefinder
