Ultimea Poseidon M20 Soundbar

The Ultimea Poseidon M20 is a compact 2.1 soundbar that delivers up to 120 W of peak power and features a built-in 3-inch subwoofer, providing clear and dynamic sound in a small space. Thanks to BassMX™ technology, bass tones are deeper and more impactful, while VoiceMX™ enhances dialogue clarity by optimizing speech frequencies in real time. This solution is ideal for watching movies, gaming, and listening to music.

Clear dialogue and powerful bass in every scene

The use of a dedicated subwoofer delivers a fuller bass sound, resulting in greater immersion during movies and games. VoiceMX™ technology ensures that dialogue is always clear, even with dynamic sound effects. This means you don't have to turn up the volume to understand conversations in movies or TV shows.

Full control and sound customization

The soundbar offers various control options—via remote, touch panel, or the Utimea app. It features a 10-band equalizer that lets you precisely adjust the sound to your preferences and save your favorite settings. Additionally, preset sound modes are available: Movie, Game, and Music, which quickly adapt the audio profile to your current needs.

Extensive connectivity options

The Utimea Poseidon M20 supports multiple audio sources. You can use Bluetooth for wireless music streaming, an optical connector to connect to your TV, an AUX input for analog devices, and a USB port to play files from external storage. This practical solution makes it easy to integrate with various devices.

Ideal for smaller spaces

Its compact dimensions make the soundbar perfect for rooms up to 10 m². The slim design with a metal grille and dark finish blends well with modern interior decor. Additionally, the adjustable LED brightness allows you to adapt the device’s appearance to the lighting conditions.

Included

- soundbar
