

Creality Space Pi Filament Dryer

Model: 4005010072

Manufacturer: CREALITY

EAN: 6971636401698

Product Code: 885022

R1,700

Creality Space Pi Filament Dryer

Creality Space Pi Filament Dryer is an advanced filament dryer that significantly improves the quality of 3D prints by eliminating problems associated with wet material, such as nozzle clogging, poor layer adhesion or misalignment. With this dryer, the filaments are thoroughly dried before the printing process, ensuring better print quality and greater reliability. The device is equipped with a number of features that make it easy to control the entire drying process.

Precise temperature control and even drying

The Creality Space Pi dryer offers temperature control from 45°C to 70°C, which allows precise adjustment of drying conditions for different types of filaments. Thanks to the PTC 360° hot-air heating technology, the device heats the filament quickly and evenly, effectively removing moisture. This guarantees stable and efficient drying, which is crucial for ideal printing results, especially with advanced materials such as PLA-CF or PA-CF.

Easy operation and process monitoring

The device was designed with ease of use in mind. It features a 3.7-inch touchscreen that allows real-time monitoring of parameters such as temperature, humidity and drying time. In addition, the Creality Space Pi is equipped with a setting memory function, allowing it to quickly resume drying after a possible power outage. The dryer supports both 1.75mm and 2.85mm diameter filaments, making it a versatile tool for a wide range of 3D printers.

Quick setup and full control

The one-button function allows you to quickly set the drying parameters for 12 popular types of filaments, greatly speeding up the setup process. The device allows you to set the drying time from 0 to 48 hours, giving you full control over the process of preparing the filament for printing. With its robust design and advanced features, the Creality Space Pi Filament Dryer is an invaluable addition to any printing workshop, helping you achieve the best results in 3D printing.

Name:	Creality Space Pi Filament Dryer
Manufacturer:	Creality
Model:	4005010072
Package dimensions:	315 x 125 x 300 mm
Net Weight:	1150g
Product Color:	Star Gray
Input Voltage:	US 110V 50/60Hz, GB/UK/EUR 220V 50/60Hz
Rated power:	145W
Temperature control range:	45°C-70°C
Drying time:	0-48h
Filament diameter:	1.75mm/2.85mm

Gross weight: 1690, Net weight: 1230, Box length: 31,50, Box width: 29,50, Box height: 12,00, GPSR
