

Flytec V010 12,000 mAh Boat Battery

Model: V010-12000mah

Manufacturer: FLYTEC

EAN: 5907085524009

Product Code: 885201

R3,861

Flytec V010 12,000 mAh Bait Boat

The boat is equipped with a dual high-speed motor and three-blade propellers, which ensure dynamic acceleration and stable handling. Thanks to the streamlined hull design, water resistance has been minimized, resulting in smooth and fast maneuvers even in challenging conditions.

Control at Your Fingertips

The modern 2.4G remote control allows you to steer the boat from up to 500 meters away. The intuitive display and ergonomic button layout give you full control over every movement—from starting the motors, to opening the feed hoppers, to activating return mode.

Precise GPS navigation

The integrated GPS and BDS module allows you to set multiple waypoints on the map and automatically navigate between them. The boat always returns to its starting point, and intelligent course correction keeps it on a stable course. This ensures your bait lands exactly where you want it.

Three independent bait compartments

The GPS Bait Boat features three separately controlled hoppers that allow you to evenly distribute bait in different locations. You can also simultaneously deploy a rig with a hook, which increases fishing efficiency and saves you time. Automatic center-of-gravity correction prevents tilting, even with a one-sided load.

Improved Y-Notch System

The specially designed Y-Notch compartment makes it easy to attach the hook and the entire rig. This solution allows you to precisely and effortlessly deliver bait to distances unreachable by a traditional rod cast.

Safety in Every Situation

Thanks to the smart return system, you don't have to worry about losing your gear. The boat will automatically return to the starting point in case of signal loss or low battery. Additionally, built-in LED lights ensure excellent visibility during night fishing and on cloudy days.

Power for long hours

The high-capacity 7.4V 12,000 mAh battery allows for 2–4 hours of continuous operation. After a full charge, which takes about 10 hours, the unit is ready for your next fishing trip, ensuring comfort and reliability on every outing.

Included

- Bait boat
- Remote control with LCD screen
- Battery
