

NZXT water cooling Kraken Plus 360 RGB LCD black

Model: RL-KR360-B2

Manufacturer: NZXT

EAN: 5056547205274

Product Code: 886168

R5,488

The NZXT Kraken Plus 360 RGB processor liquid cooling system offers a solution for keeping your CPU cool during intense gaming sessions or demanding workloads. This all-in-one liquid cooler features a striking 1.54" LCD display that allows for real-time monitoring and customization, providing both functionality and style to any build. With a robust 360 mm radiator made of durable aluminum and copper, it efficiently dissipates heat while maintaining low noise levels thanks to fluid dynamic bearing fans. Equipped with three RGB core fans and pre-applied thermal compound, this cooling system ensures hassle-free installation and optimized performance.

Designed for compatibility with various socket types, including LGA115x, LGA1200, LGA1700, LGA1851, Socket AM4, and AM5, the NZXT Kraken Plus 360 RGB caters to a wide range of processors. The combination of impressive airflow of 75.05 cfm along with a flexible CIIR rubber sleeved tube design enhances circulation within your case, providing consistent cooling where it matters most. Elevate your system's aesthetic with vibrant RGB lighting and enjoy the peace of mind that comes with enhanced thermal management, making this cooler a choice for enthusiasts and gamers alike.
