JUP4370 70W

GaN USB-C® 4-Port Charger

Model: JUP4370EF-N

Manufacturer: J5CREATE

EAN: 4712795088731

Product Code: 887633

R2,048

The 70W GaN USB-C® 4-Port Charger can simultaneously charge 4 devices. The charger uses GaN technology which enables it to deliver a significant amount of power in a small package.

All the USB-C® ports support Power Delivery 3.0/2.0 technology, the USB-A™ port supports QC™ 18W fast charge. When using just one of the ports, the first port supports up to 70W, enabling MacBook®, laptops, tablets, handheld game consoles, and other mobile devices to charge at the fastest rates possible. The second and third port supports up to 20W, enough for charging a second tablet or phone. The product keeps 45W on the first port while other port(s) is/are being use so you can seamlessly charge your laptop and other devices at the same time.

With the small and light design, the charger can attach against the wall more firmly, reducing the chance of the charging falling off the wall. Not to mention, surge, overcharging, overcurrent, and overheating protection are all included.

The product information provided is for reference purposes only. Technical specifications, photos, descriptions and prices may change without prior notice. The manufacturer and seller are not responsible for possible data discrepancies or typographical errors. We recommend checking the current information before purchasing.
