BoboVR CG2 Charging Station for Smart Glasses

The BOBOVR CG2 is a modern 3-in-1 charging system designed for smart glasses users who expect maximum convenience, mobility, and safety. It combines an elegant magnetic docking station, an ultra-lightweight portable power clip, and a practical protective case with a charging function, so you can use your device exactly as you want—at your desk, on the go, on a walk, or during a weekend trip. The system provides fast charging—up to 80% in just 55 minutes and a full charge in about 1 hour and 23 minutes, while the 350 mAh battery offers up to 1.3x additional runtime. It's a complete solution designed for people who don't want limitations.

Just set them down and charge - convenience you'll appreciate every day

No more tangled cables or constantly plugging in devices. The BOBOVR CG2 magnetic docking station works intuitively – simply place the glasses on the dock, and charging will start automatically. This solution is not only convenient but also aesthetically pleasing—the dock doubles as an elegant stand, keeping your smart glasses organized, safe, and ready to go. The perfect choice for a desk, nightstand, or workspace.

Mobile power you'll barely notice

When you're on the go, mobility matters. That's why the BOBOVR CG2 battery clip weighs just 19 grams, making it almost imperceptible during use. Its compact design allows you to easily clip it onto compatible glasses and instantly get extra power exactly when you need it. The 350 mAh battery provides up to 1-1.3 times longer runtime, which means less stress and more freedom during everyday use, travel, or field work.

Charge and protect at the same time - a smart case for every trip

The BOBOVR CG2 is not just a charger, but also practical protection for your gear. The protective case with a charging function lets you safely store your glasses while recharging them without having to remove the device. This is incredibly convenient while traveling, commuting, or during an active day out and about. Its compact design, a closure system that secures your glasses, and a practical carrying strap mean you can always have the set at hand—ready to go wherever you are.

Fast charging and smart protection for your gear

Modern devices require a reliable power source. The BOBOVR CG2 features fast USB-C charging and advanced protection systems that ensure the device's safety during every charging cycle. Temperature control and surge protection help safeguard the electronics from damage while ensuring stable and efficient charging. This solution provides not only convenience but also peace of mind in everyday use.

Compatibility with the most popular smart glasses

The BOBOVR CG2 was designed with broad compatibility in mind, making it compatible with the most popular models of smart glasses. It supports Ray-Ban Meta Wayfarer (Gen 1 and Gen 2), Skyler
