Lightning-Fast Local Data Transmissions

10 Gbps Host Server Building

High Hardware Configuration for a Powerful Server

Play Never Ends with 10G

With 10 Gbps internet access, your gaming will be fully optimized with a large boost in speed, latency, and responsiveness. Large-sized game downloads, seamless live streaming, and massive data backups via the cloud are as easy as choosing your character.

Local Data Transmissions in Seconds

For local connections, a 10G PCIe adapter helps build a lightning fast transport channel between a central server and other working machines in your local network. Local data transmissions will be a breeze for you as you handle bandwidth-intensive tasks easily at your home or office.

Versatile, Multi-Speed Compatibility

10GBase-T is backwards compatible with multiple data rates, including 10 Gbps, 5 Gbps, 2.5 Gbps, 1 Gbps, and 100 Mbps Base-T connectivity. The 10G Ethernet port automatically negotiates between higher and lower speed connections, allowing you to upgrade to 10G networking smoothly.
