7 LED Effects

The included 1 to 8 LED HUB can be managed system lights via the LED effects control button and provides seven different modes of lighting effects

SLEEK

The MPG GUNGNIR 100 is tailored to the specific theme and meets the player's diverse preferences. In addition, MSI's simple and modern style in black and grey, with the transparent tempered glass side panel, and simple cutting design, make the overall shape more outstanding. Combined with neutral tones, the MPG GUNGNIR 100 is more harmonious when presenting colorful RGB effects, strongly demonstrating the player's personal style.

Inspired by the weapon – Gungnir, which is the spear of Odin, the god of the Nordic mythology, the shape of the spear echoes the triangular sharpness in the front of the GUNGNIR 100.

The MPG GUNGNIR 100 adopts a plain industrial design with durability enhancement and DIY optimization. In addition, it is equipped with an ARGB fan for lightning effects, and 3D printing parts for personalization, which cleverly matches with MSI unique gaming elements.

ESSENTIAL

The MPG GUNGNIR 100 has storage space with a large capacity and optimized internal design for convenient assembly. A variety of cooling options are also available. Equipped with a 4mm tempered glass side panel, you can have a PC build with perfect assembly and your personal style.

CLEAR INTERIOR VIEW

The light gray tone of 4mm tempered glass side panel is ideal for displaying RGB lighting effects and provides clear internal component construction.

OPIMIZE AIR FLOW

Room for up to Seven system cooling fans, or a 360mm radiator in the top, and 420mm radiator in the front. Provide the whole system with ventilation for better stability
