GODOX FL15Bi LED Studio Light

The Godox FL15Bi LED Studio Light is a compact LED light for photography and videography, featuring color temperature adjustment in the range of 2800K-6500K, a built-in 4750 mAh battery, and USB-C charging. It offers high brightness of up to 25,600 lux at a distance of 0.5 m with the light beam focused to its maximum (Spot mode), making it ideal for video recording, portrait photography, creating content for social media, and working in a home or mobile studio.

Adjustable Color Temperature

The color temperature range from 2,800K to 6,500K allows you to easily adapt the light to various working conditions. Warm light is ideal for creating atmospheric shots, neutral color temperature makes it easier to work in mixed lighting, while cooler light is suitable for photos and videos taken in daylight. This means a single lamp can be used for a wide variety of projects.

High-intensity focused light

The product information provided is for reference purposes only. Technical specifications, photos, descriptions and prices may change without prior notice. The manufacturer and seller are not responsible for possible data discrepancies or typographical errors. We recommend checking the current information before purchasing.

itworkup.co.za | sales@itworkup.co.za | +27 (11)541-9950

The Godox FL15Bi delivers a light intensity of up to 25,600 lux from a distance of 0.5 meters at a color temperature of 6500K when the light beam is maximally focused (Spot mode). Concentrated light allows for precise illumination of the subject being photographed or filmed, which translates to greater control over scene lighting and better highlighting of details. It's worth noting that the stated light intensity value applies to operation with the beam focused to its maximum, in accordance with the manufacturer's measurement methodology.

Built-in Battery and USB-C Charging

The built-in 4750 mAh lithium battery provides approximately one hour of runtime at maximum brightness. When the battery runs out, the light can be conveniently recharged via the USB-C port using common chargers or power banks. This feature makes the FL15Bi well-suited for use outside the studio.

Manufacturer	Godox
Model	FL15Bi
Type	LED studio light
Color temperature	2800K-6500K
Battery Capacity	4750 mAh
Run Time	approximately 1 hour at 100% brightness
Charging	USB-C
Weight	approx. 253 g
