

MOES WCM-Q29 8MP Dual-Lens Wi-Fi IP Camera

Model: WCM-Q29-MS

Manufacturer: MOES

EAN: 6974246472683

Product Code: 917526

R1,712

MOES WCM-Q29 8MP Dual-Lens Wi-Fi IP Camera

The MOES WCM-Q29 is an advanced outdoor camera equipped with a dual-lens system, offering a total resolution of 8 MP (2 × 4 MP). Thanks to its two independent lenses, it is possible to monitor different areas simultaneously, significantly expanding the surveillance coverage. The camera supports HD and SD modes, allowing you to adjust image quality to available bandwidth, and thanks to Wi-Fi connectivity (2.4 GHz and 5 GHz) and Wi-Fi 6 support, it ensures a stable and fast connection. Integration with the MOES, Tuya Smart, and Smart Life apps enables full control from your smartphone.

Dual View and Advanced Monitoring

The use of two lenses allows for simultaneous recording of different perspectives, which enhances security and eliminates blind spots. The camera utilizes intelligent motion detection algorithms that recognize moving objects and immediately send notifications to your phone. The motion tracking

feature further enhances monitoring effectiveness.

Full PTZ control and wide field of view

The camera offers horizontal rotation up to 300° and vertical rotation up to 90°, allowing for monitoring of a wide area. Additionally, users can save selected viewing points and quickly return to them via the app, simplifying daily operation.

Clear Night Vision

The WCM-Q29 supports two night vision modes—classic infrared mode and full-color mode using LEDs. As a result, the camera provides a clear image in both complete darkness and low-light conditions, enhancing monitoring effectiveness around the clock.

Efficient data storage and compatibility

The camera supports H.264 and H.265 video compression, with H.265 reducing memory and bandwidth usage by up to 50%. Recordings can be saved to a microSD card with a capacity of up to 128 GB or to the cloud (paid service). Compliance with the ONVIF standard enables integration with NVRs and other surveillance systems.

Additional features and communication

The device offers two-way voice communication thanks to a built-in microphone and speaker, allowing for real-time conversations via the app. The camera can also serve as a light source—the light can be turned on manually or scheduled to operate. Features such as playback, gallery, privacy mode, and device volume control are also available.

Durable construction and operation in all conditions

The IP65-rated housing ensures resistance to rain, dust, and changing weather conditions, making the camera ideal for outdoor applications. The device operates at temperatures ranging from -10°C to 45°C and at humidity levels up to 95%, while the 5 V / 2 A power supply ensures stable operation. A dual antenna improves signal quality, and a reset button hidden under a waterproof cover makes

operation easy.

Included

- IP camera
- USB cable
- mounting bracket
- screws
- user manual

Manufacturer	Moes
Model	WCM-Q29
Light sensitivity	0.1 lux
Video format	H.265 / H.264
Power supply	5 V / 2 A
Operating temperature	-10 ~ 45°C
Operating humidity	≤95%
Resolution	4 MP
Network protocols	TCP/IP, IPv4, DHCP, P2P
Network connectivity	Supports 2.4 GHz / 5 GHz wireless networks Wi-Fi 6 encryption support
Maximum RF transmission power	+17 dBm
Frequency band	2.4 GHz / 5 GHz
Rotation range	Horizontal 300° / Vertical 90°
