

Flytec V080 Basic 20,000 mAh Bait Boat

Model: V080-Basic

Manufacturer: FLYTEC

EAN: 5907085524153

Product Code: 917645

R5,950

Flytec V080 Basic 20,000 mAh Bait Boat (battery not included)

Discover a new level of precision in fishing with the V080 bait boat. Equipped with an advanced GPS system, it can store up to 180 waypoints, allowing you to create your own fishing spot map and precisely repeat your baiting. It's the perfect solution for anglers who value control, consistency, and effectiveness.

Power and Stability Thanks to Dual Motors

The boat is powered by two powerful 550-class brushed motors, supported by a gyroscopic system. This configuration ensures stable operation, minimizes drift, and provides reliable control even over longer distances. A special water-cooling system maintains the optimal operating temperature of the drive. This provides better protection for the motors and significantly extends their service life—so you can enjoy long hours of trouble-free operation.

Ultra-high-capacity 20,000 mAh battery

The battery (not included), with a capacity of up to 20,000 mAh, provides 2–4 hours of runtime on a single charge. It's the perfect solution for longer fishing sessions—fewer breaks, more productive fishing.

Full control thanks to the remote with a display

Remote control is handled via a remote with a 4.3-inch LCD display, which shows, among other things, distance, battery level, and saved GPS waypoints. The intuitive interface makes operation easy, and the buttons allow you to quickly select fishing zones, activate constant-speed mode, or return the boat to its starting point. If the battery level drops too low or the boat loses the signal, it will automatically return to its saved starting position. This ensures safety and peace of mind for your equipment.

Baiting with Precision and Variety

The dual hopper, with a total capacity of up to 3 kg, allows you to dispense two types of bait simultaneously. This means you can combine strategies and make the fishing spot more attractive without having to return to shore each time.

High-Performance LED Lighting

Bright LEDs at the front and rear of the boat ensure excellent visibility at night. This allows you to easily monitor your direction of travel and maneuver precisely even after dark.

Durable and Waterproof Construction

The ABS and carbon fiber hull is impact-resistant, and the seals and stainless steel screws effectively protect the electronics from water. The design has also been optimized for wind resistance, which increases the boat's stability on the water.

Fishing net function

The solenoid valve allows you to easily deploy the net at a selected location. This is an additional feature that expands the boat’s capabilities.

Included in the set

- Bait boat
- Remote control with LCD display
- Antenna
- Charging cable
- USB-C cable
- AC adapter
- Propeller caps (two pieces)
- Spare propeller
- Mounting screws and eyebolt (two pieces)
- Remote control carrying strap
- Control stick cover
- Carrying bag
- User manual

Manufacturer	Flytec
Model	V080
Color	Black

Battery (sold separately) 12 V 20,000 mAh

Operating time	2-4 h
Charging time	approx. 12 h
Range	up to 800 m
Dimensions	54.8 x 27.5 x 27.7 cm
