

Portable air conditioner with heating function EcoFlow Wave 3

Model: EFWAVE3-EU-NBox

Manufacturer: ECOFLOW

EAN: 4895251630900

Product Code: 921141

R18,517

EcoFlow Wave 3 portable air conditioner with heating function

The EcoFlow WAVE 3 is a portable air conditioner that offers efficient cooling and heating in all conditions - from a tent on a camping trip to the interior of an RV or yacht. Thanks to its impressive performance, it can instantly provide the right temperature - lowering it by 8°C or raising it by 9°C in just about 15 minutes. What's more, in combination with the separately available LFP battery, the unit can operate for up to 8 hours without access to power. At the same time, the WAVE 3 is extremely compact and easy to install, and convenient management of its operation is enabled by the EcoFlow app.

It will heat or cool the space in several minutes

WAVE 3 is perfect for both summer and cooler days. It offers an efficient cooling capacity of 6100 BTU, which can reduce the temperature by 8°C in a quarter of an hour. And when it gets cold, simply switch it to heating mode - with up to 6,800 BTUs of power, the unit will raise the temperature by 9°C just as quickly. It's perfect for autumn camping, mountain hikes or chilly mornings on the road!

Power supply tailored to your needs

The WAVE 3 can be powered directly from a wall outlet (AC), and is also compatible with a separately available rechargeable battery that provides up to 8 hours of wireless operation thanks to its 1024 Wh capacity. You'll charge it in several ways - from the grid as standard, from the cigarette lighter socket, using photovoltaic panels or from the vehicle's alternator. This way you can easily ensure optimal temperature in almost any situation! What's more, charging the additional battery can be very fast. By combining photovoltaic panels and an AC outlet, you will charge it in just about 75 minutes!

Easy installation and convenient operation

Installation of the WAVE 3 is quick and intuitive - the insulated outlet channel and matching adapters make it easy to install in a tent, trailer, car or boat. It won't take you too long - just a few moments to ensure your comfort while traveling or camping!

Made for travel and everyday use

Whether you're going camping, planning a weekend in an RV, or want to make sure you're comfortable in your vacation home - WAVE 3 will help you take care of the right temperature. With its heating and cooling capabilities, it will be useful all year round! It will also work well as an air conditioner in the workshop, on the boat, in the truck or even in a small apartment. Its compact design and easy installation, make it a great choice wherever you need instant heating or relief from the heat.

Choose from available functions and modes

WAVE 3 offers a wide selection of smart functions and modes. Working in automatic mode, the air conditioner switches to heating by itself when the temperature drops. This will keep you warm even

during chilly nights camping in the mountains! On the other hand, the Pet Care mode makes sure that when the ambient temperature exceeds the set value (from 35°C to 45°C), the device will start cooling and send you a notification to your phone. This will ensure your pet's comfort and safety, for example, in the car. In addition, the dehumidification function helps fight humidity on rainy days, and the night mode makes WAVE 3 extremely quiet - it generates a noise level of just 44 dB, equivalent to a quiet conversation.

Smart control with the EcoFlow app

With the EcoFlow app, you have full control over your air conditioner - just reach for your phone. This way, for example, you can remotely change modes, monitor battery levels and schedule automatic shutdown. You'll also receive notifications when the water tank needs to be emptied. No need to worry about forgetting something!

An eco-friendly choice for years to come

WAVE 3 uses R290 refrigerant, which is much less harmful to the environment than traditional solutions. Over 10 years of use, it can reduce CO₂ emissions by up to about 2041 kg - that's like saving 130 trees from being cut down. EcoFlow proves that comfort can go hand in hand with care for the planet!

Included

- Portable air conditioner with heating function EcoFlow Wave 3
- Outlet duct with insulation
- Set of adapters (A, B, C)
- Drain hose
- Mounting template
- Winder
- Quick start guide, safety instructions and warranty card

Manufacturer EcoFlow

Name	WAVE 3
Model	EFWAVE3-EU-NBox
Dimensions	51.9 x 29.7 x 33.6 cm
Weight	Approx. 15,6 kg

Cooling and heating

Cooling power	1800 W (6100 BTU)
Heating power	2000 W (6800 BTU)
Temperature setting range	From 16°C to 30°C
Refrigerant / quantity	R290 / 112 g
Air flow rate	330 m³/h
Rated power in cooling mode (AC/DC)	690 W / 640 W
Rated power in heating mode (AC/DC)	645 W / 606 W
Cooling efficiency (AC/DC)	2,6 / 2,8
Heating efficiency (AC/DC)	3,1 / 3,3

Power supply

AC power supply	100-240 V, ~50/60 Hz, 820 W max.
Additional battery input	700 W max.

Other

Operating temperature range	5°C to 50°C
Protection class	IPX4
Noise level	44-58 dB
