

Niimbot B4 Portable Label Printer (blue)

Model: B4 Space Blue

Manufacturer: NIIMBOT

EAN: 6978061950401

Product Code: 921142

R2,342

Niimbot B4 portable label printer (blue)

Niimbot B4 is a device designed for maximum simplicity and efficiency. Three steps are enough to start printing: load a roll of labels, connect to the app via Bluetooth (short-range wireless communication technology) and print the label. Intuitive operation makes using the printer quick and convenient even for novice users.

Wide application in many industries

With support for labels from 20 to 110 mm wide, the Niimbot B4 printer will work well in logistics, warehouses, stores, food service, offices and even creative studios. You can create shipping labels, price tags, material markings, product labels or decorative stickers - all in one device.

Durable printing without ink and toner

The product information provided is for reference purposes only. Technical specifications, photos, descriptions and prices may change without prior notice. The manufacturer and seller are not responsible for possible data discrepancies or typographical errors. We recommend checking the current information before purchasing.

The printer uses modern thermal technology, so you don't have to buy expensive ink or toner. Labels are created quickly and precisely, and their quality remains consistent - legible bar codes, sharp lettering and clear graphics. It's a cost-effective, eco-friendly and reliable solution.

Reliability in all conditions

Labels printed by Niimbot B4 are waterproof, oilproof, scratch-resistant and tear-resistant. The material's six-layer construction ensures exceptional durability, which is especially important in the food, logistics and manufacturing industries. Your markings will remain legible regardless of conditions.

Efficiency and speed of operation

The Niimbot B4 printer can print at speeds as fast as 80 mm/s, handling wide labels up to 108 mm. It is equipped with a powerful 2000 mAh rechargeable battery, allowing for long operation without recharging. The automatic paper centering, rewinding and alignment function eliminates wasted material, while the ability to print in batches and support up to 10 users simultaneously increases efficiency in teamwork.

Personalization and versatility

With a free mobile app with more than 16,000 templates, you can quickly create your own label designs. What's more, Niimbot offers roll personalization - you can order labels in the color, material and size of your choice from just one roll. This is ideal for companies that want to differentiate their products and strengthen their brand identity.

Smart features for even more convenience

The Niimbot B4 isn't just about fast and durable printing, it also has smart features to make everyday work easier. The device supports RFID (Radio-Frequency Identification) technology, which automatically recognizes the type and size of labels - so you don't have to manually set parameters and avoid mistakes during setup. In addition, the printer offers automatic label recognition and positioning, which eliminates material waste and guarantees precise prints from the first label. Full compatibility with mobile devices and PCs means you can conveniently design and print labels in any
