

Flytec V020 5200mAh Baitcasting Reel

Model: V020-5200mah

Manufacturer: FLYTEC

EAN: 5907085524016

Product Code: 925159

R3,861

Flytec V020 5200 mAh Bait Boat

The Flytec V020 5200 mAh bait boat is the perfect choice for anglers who value convenience and effectiveness. Thanks to its built-in GPS module, you can set up to 40 waypoints, allowing you to bait precisely in the same spots every time. Additionally, if the battery starts to run low or you lose signal, the boat will automatically return to the starting point.

Three bait compartments

The model is equipped with three compartments—two on the sides and one at the rear—allowing you to easily adjust the amount and method of bait delivery. This solution enables effective fishing in various conditions and delivers the bait mix exactly where you need it.

Stable steering and dual motor

The dual drive system with damage-resistant guards ensures reliable operation, and the wind resistance reduction system keeps the boat stable even in stronger gusts. A control range of up to 500 m allows for free exploration of large bodies of water, and a special cruise control function enables you to travel at a constant speed without having to constantly operate the joysticks.

LED lighting for night fishing

Powerful LED lights increase the boat's visibility after dark, making it easier to navigate on the water and additionally attracting fish. This allows you to continue fishing even at night, gaining an advantage where others must stop fishing.

Functional remote control with LCD screen

Control is via a 2.4 GHz remote control equipped with a clear LCD screen. From here, you can also program GPS waypoints or check the operating status. Requires 4 AA batteries (sold separately).

Additional fishing capabilities

The boat also allows you to attach a line and hook to the back, so you can cast the hook in places you wouldn't reach with a traditional rod. This practical solution enhances your comfort and fishing capabilities.

Sturdy construction

The body, made of durable ABS plastic, is highly resistant to impacts and splashes. Its compact dimensions make it easy to transport and store the boat, so you can always have it on hand.

Included

- Bait boat
- Battery
- Remote control with LCD screen
- Charger
- USB cable
