

DarkFlash CB360 Water- Cooled CPU Cooler (Black)

Model: CB360 BLACK

Manufacturer: DARKFLASH

EAN: 4711527009501

Product Code: 926145

R1,837

DarkFlash CB360 CPU Water Cooler (Black)

The DarkFlash CB360 is a high-performance all-in-one water cooler that combines excellent heat dissipation with striking ARGB lighting and a modern, panoramic water block design. It features an aluminum heatsink, three pre-installed 120mm fans, and a copper base with a large contact surface, allowing it to effectively cool even the most demanding processors with a TDP of up to 300 W. In addition, the integrated ARGB lighting with synchronization support ensures the kit blends perfectly with modern gaming PCs and workstations.

Panoramic water block with ARGB lighting

The cooling system features a transparent, panoramic water block with built-in ARGB lighting that creates unique lighting effects. This gives the computer a modern look and looks great in cases with

glass side panels. Support for ARGB synchronization (including ASUS Aura Sync, MSI Mystic Light, Gigabyte RGB Fusion 2.0, and ASRock Polychrome RGB) allows you to easily match the lighting to the rest of your PC components and create a cohesive visual setup.

Effective CPU cooling

The CB360 model is equipped with an aluminum heatsink and a large copper base, which increases the contact surface with the CPU and improves heat conduction. The system is supported by a three-phase pump that operates at approximately 2850 RPM and runs exceptionally quietly—its noise level is only about 29 dBA. All of this creates the ideal conditions for gaming, rendering, or working with demanding applications.

Quiet operation and efficient PWM fans

Three integrated 120 mm fans use fluid dynamic bearings and support automatic PWM control, allowing the rotational speed to be dynamically adjusted to the CPU temperature. The range from 800 to 1,800 RPM maintains a balance between performance and quiet operation. Airflow reaches 69.81 CFM, pressure is 2.2 mmH₂O, and the maximum noise level is only 28.5 dBA. This allows you to comfortably use your computer even during long gaming sessions—without your hardware overheating and without annoying noise.

Durable construction and easy installation

The model uses 12.5 mm braided tubing, which reduces fluid evaporation and increases the durability of the entire system. Pre-installed fans simplify installation and allow you to get your computer up and running faster. The cooler supports 5V 3-pin and PWM 4-pin connectors, allowing for easy connection to compatible motherboards.

Wide compatibility with Intel and AMD platforms

The DarkFlash CB360 works with popular Intel and AMD processors, making it suitable for both new and upgraded computers. The cooling system supports Intel LGA 1200, 1700, and 18xx sockets, as well as AMD AM5, AM4, and AM3 sockets. You'll have no trouble adapting it to your setup!

Included

- Heatsink and water block x1
- 120 mm fan x3
- User manual x1
- Mounting screw set x1
- Accessory set x1
- Thermal paste x1

Manufacturer	DarkFlash
Model	CB360
Color	Black
Cooling type	Integrated AIO water cooling
TDP	300 W
Water block dimensions	66 × 66 × 67.7 mm
Water block material	Block – copper, housing – plastic
Pump speed	2850 ±10% RPM
Pump voltage	DC 12V
Pump noise level	29 ±10 dBA
Heat sink material	High-density aluminum
Water reservoir dimensions	396 × 120 × 27 mm
Cable type	Braided cable
Cable length	450 mm
Fan size	120 × 120 × 25 mm
Bearing type	Hydraulic
Fan control	PWM
Fan speed	800-1800 ±10% RPM
Maximum fan noise level	28.5 dBA
Maximum airflow	69.81 CFM

The product information provided is for reference purposes only. Technical specifications, photos, descriptions and prices may change without prior notice. The manufacturer and seller are not responsible for possible data discrepancies or typographical errors. We recommend checking the current information before purchasing.

Maximum air pressure	2.2 mmH2O
Fan lifespan (MTTF)	Up to 30,000 hours
Intel compatibility	LGA 1200 / 1700 / 18xx
AMD compatibility	AM5 / AM4 / AM3
