

GENESIS Thor 404 TKL keyboard Gaming USB QWERTY US International Black

Model: NKG-2069

Manufacturer: GENESIS

EAN: 5901969443196

Product Code: 928252

R2,274

The new incarnation of a legend. Welcome Genesis Thor 404 TKL - the successor to the acclaimed and award-winning Genesis Thor 303 TKL model. A completely new design (non-floating key), Gateron Yellow Pro switches providing lightning-fast response, and Hot-Swap technology allowing tool-free mechanism replacement are not its only advantages. New, better, more advanced. Here is Genesis Thor 404 TKL.

NEW SWITCHES. GREATER PRECISION

Do you expect smooth movement and the dynamism that will help you dominate your opponents? We understand it well, which is why we equipped Genesis Thor 404 TKL with advanced Gateron Yellow Pro switches with a linear characteristic. With a durability of 60 million clicks, activation after a 2 mm press, and a actuation force of only 50 g, that's not all. Combined with a 1 ms response time, Gateron Yellow Pro offers significantly better experiences compared to classic Gateron Yellow switches. Quieter, smoother, and faster. Want to improve your gaming performance? You can count on it.

DETAILS THAT MAKE A DIFFERENCE

Switches are one thing. However, we haven't forgotten about key elements like stabilisers and lubrication. It is thanks to them that we were able to maximize the performance of Gateron Yellow Pro. The result? Smoother switch operation and quieter performance in any situation.

REPLACE A SWITCH IN JUST A FEW SECONDS

Do you want to change a switch without any additional tools or technical knowledge? Get to know the Hot-Swap technique, which allows you to do it in just a few seconds. Thanks to it, you can not only customize the key operation to your own preferences but also extend its lifespan by replacing the mechanism with a brand new one. Simple, isn't it?

QUIETER THAN USUAL

Had enough of noise? Linear Gateron Yellow Pro switches are much quieter than their brown and blue counterparts. Furthermore, to meet the expectations of demanding users, we've placed a special sound-absorbing foam inside Genesis Thor 404 TKL, which absorbs vibrations and dampens key strikes during the most dynamic actions. With Genesis Thor 404 TKL, nighttime gaming becomes possible.

SUPRISING CRAFTSMANSHIP

Greater key stability and a more compact design. Discover the benefits of a closed housing that won't budge even during the most dynamic actions. What's more, the massive frame of the device also means no bending under heavy pressure. Keys? We haven't forgotten about them either. Classic
