COOL TOUCH

Never get burned

Because of double wall and special air layer between inner and outer layer, this kettle will keep you on the safe side when touching the housing. If you have children in the kitchen, they will be safe with cool kettle outside.

No spilling water

You can make a delicious cup of tea or coffee using just one hand. The lid will open with just a gentle push on the button and special anti drip lid design will make sure no drop of hot water will drip from the container.

Cool exterior & no sillicone interior

Double wall ensures better insulation to keep water hot longer. It also keeps sillicone out of the interior as well as reduces the exterior temperature when the water is hot or boiling.

Stainless steel inner body

Double wall ensures better insulation to keep water hot longer. It also reduces the exterior temperature when the water is hot or boiling.

No cord lenght restriction

Power cord is attached to the separate power base so you can fill and pour freely. Power base is equipped with cord storage for easy handling of the power cord.
