

RainPoint Rain Sensor Irrigation Controller

Model: ITV517V6-RS

Manufacturer: RAINPOINT

EAN: 5905156102729

Product Code: 930781

R1,404

RainPoint Irrigation Controller with Rain Sensor

Automate your garden watering and save water with the RainPoint controller featuring a rain sensor. The device allows you to create up to 3 independent watering schedules, adjust the runtime from 0 to 90 minutes, and set the frequency to every 6, 8, or 12 hours, or in a 1-7 day cycle. The built-in rain sensor system automatically pauses irrigation during rain, and the large LCD screen allows for convenient control of settings.

Smart watering without water waste

Thanks to its integration with a wired rain sensor, the system automatically responds to weather conditions. When the sensor detects rainfall, all programmed cycles are paused, preventing overwatering and helping to reduce water consumption. Once the sensor dries out, the device

automatically resumes its programmed operation, ensuring full automation and ease of use.

Flexible schedules tailored to your garden

The controller offers up to three independent watering schedules that you can customize for different areas of your garden. You can set the exact start time, watering duration, and frequency—from a few hours to several days. This solution allows you to precisely adjust the amount of water to your plants' needs, regardless of their type or weather conditions.

Convenient operation and clear display

A large LCD screen along with intuitive buttons and a dial allow you to quickly set all parameters. The manual watering function lets you start irrigation at any time without changing the saved schedules, and the rain delay mode allows you to pause watering for up to 72 hours.

Robust construction and reliable operation

The device is designed for outdoor use and features an IP54 rating, protecting it from dust and splashes. A built-in filter prevents debris from entering the unit, and battery power (2× AAA) ensures convenient installation without the need for an electrical connection. The controller supports operating pressures from 0.5 to 8 bar and flow rates up to 35 l/min, ensuring broad compatibility with garden irrigation systems.

Included:

- Irrigation controller
- Rain sensor (5 m)
- Gasket
- Teflon sealing tape
- User manual
