Cycplus AS210 MAX AT1 Max Anoutway mini bike pump

The Cycplus AS210 MAX AT1 Max Mini Bike Pump is a practical solution for people who want reliable support always at their fingertips, whether for daily commutes or longer rides. The device stands out for its extremely compact design, measuring just 8 × 5 × 3 cm and weighing only 198 g, so it fits easily into a bag, backpack, or bike pannier. The set also includes a waterproof carrying case that makes it easy to store the pump and protects it while you ride. This model is designed with mobility, convenience, and readiness in mind—so it's there when you really need it.

Precise pumping under full control

The Cycplus AS210 MAX AT1 Max is equipped with a real-time pressure measurement feature, allowing you to monitor the entire pumping process as it happens. The easy-to-read display shows

the battery level, current pressure value, and selected unit (BAR or PSI). The maximum pressure is as high as 120 PSI, making the pump ideal for a variety of cycling applications. An additional convenience is the automatic shut-off feature once the set pressure is reached, which not only enhances user comfort but also helps prevent over-inflation of the tire.

Fast performance and sturdy construction for any ride

This compact device also impresses with its performance. The pump can inflate a tire from 0 to 80 PSI in just 50 seconds, allowing you to get back on the trail quickly without unnecessary delays. The built-in 600 mAh battery provides sufficient power for operation, and a full charge takes only one hour. While charging, the battery level indicator remains illuminated, making it easy to monitor the device's status. Also worth noting is the heat-resistant hose, which enhances safety and durability even during intensive use.

One pump, many cycling applications

The Cycplus AS210 MAX AT1 Max was designed with broad compatibility in mind, which is why it supports both Presta and Schrader valves. This makes it ideal for many types of bikes—from road bikes, to city and mountain bikes, all the way to e-bikes. The pump's battery allows you to inflate up to four 700x25C tires within a pressure range of 0–120 PSI. It's a modern, handy, and functional pump for any cyclist who values convenience, speed, and the assurance that their tire pressure is always under control.

Included in the set

- Pump
- Waterproof bag
- Charging cable
- High-temperature-resistant hose
- Presta valve adapter
- Sealing ring
