Cycplus AS220 PRO POCKET 2 PRO AIRBANK Mini Bike Pump

The Cycplus AS220 PRO POCKET 2 PRO AIRBANK is a mini bike pump designed for people who don't want to compromise between size and performance. The device measures just 7 × 2.9 × 5 cm and weighs only 130 g, so it easily fits in a jersey pocket, saddle bag, or backpack. Despite its compact design, it delivers a maximum pressure of up to 120 PSI, making it ideal for both daily commutes and longer road rides. It's a practical solution for cyclists who want reliable support on hand in case of a flat tire.

Fast inflation and full pressure control

Its small size goes hand in hand with excellent performance. The pump can inflate a 700x25C road bike tire to 80 PSI in just 50 seconds, allowing you to get back on the road quickly without

unnecessary delays. The built-in LED display shows real-time pressure, as well as the battery charge level, the selected pressure unit (BAR or PSI), and the current inflation value, giving you full control over the entire process. An additional convenience is the auto-off feature, which automatically stops operation once the set inflation level is reached, increasing user comfort and helping to avoid accidentally overinflating the tire.

Always ready to go

The Cycplus AS220 PRO is equipped with a 420 mAh battery, which provides enough power to inflate up to 4 road bike tires on a single charge. This makes the pump ideal as emergency gear for the road, but also as a practical part of a cyclist's everyday equipment. Charging via the USB-C port takes only 30 minutes, so the device can be quickly prepared for your next ride. Compatibility with Presta and Schrader valves further enhances its versatility and makes it a suitable choice for a wide range of users.

Small device, big convenience on every ride

The AS220 PRO POCKET 2 PRO AIRBANK is a perfect example of how a modern bike pump doesn't have to be big to be truly effective. It combines pocket-sized dimensions, low weight, fast performance, a clear LED display, and convenient USB-C charging into one, well-designed device. If you're looking for a lightweight, handy, and efficient mini bike pump that will help you maintain proper tire pressure and give you greater peace of mind on every ride, the Cycplus AS220 PRO is just for you.
