DDPAI Z90 2026 Dash Cam

The DDPAI Z90 2026 is a car dash cam with a front camera offering 4K resolution (3840 × 2160) at 30 fps and a rear camera with a resolution of 2560 × 1440 at 25 fps. The front module can also record video at 2560 × 1440 at 60 fps, and the device features Dual HDR technology, built-in GPS, 4G connectivity, parking monitoring, and support for microSD cards with capacities up to 512 GB. Additional features include Wi-Fi 6 Turbo 5 GHz, Bluetooth 5.1, a 3-inch screen, app control, a 3-axis G-sensor, and wide viewing angles of 143° in the front and 126° in the rear.

Detailed 4K Recordings

The DDPAI Z90 2026 front camera allows for 4K recording at 30 fps, ensuring that a wealth of detail is preserved in the footage—useful when reviewing your route later. Alternatively, a 2560 × 1440 mode at 60 fps is available, providing smoother footage when recording rapidly changing road conditions. The front lens has an F1.8 aperture and a 143° field of view, while the rear camera features an F2.0 aperture, a 126° field of view, and records video at a resolution of 2560 × 1440 at

25 fps, all complemented by Dual HDR technology.

Parking Monitoring, GPS, and 4G Connectivity

The dashcam supports parking monitoring, allowing it to keep an eye on your car even after you’ve finished driving. The built-in GNSS module works with GPS, BDS, GLONASS, GALILEO, and QZSS systems, providing access to vehicle location data. The device also offers 4G connectivity, a 3-axis G-sensor, and a 3-Channel Connection feature with Direct Wiring, expanding the dashcam’s installation and usage options.

Wi-Fi 6, App, and User-Friendly Operation

The DDPAI Z90 2026 uses Wi-Fi 6 Turbo in the 5 GHz band and Bluetooth 5.1, which improves wireless communication between the dashcam and a mobile device. The mobile app allows for convenient management of the camera’s functions, while the voice command “Take Photo” lets you take a photo without having to reach for the dashcam. The housing also features a 3-inch screen with a resolution of 640 × 360, allowing for a direct preview of the video feed and key information from the device.

Up to 512 GB of storage and a wide operating temperature range

Recordings are saved in MP4 format, and the device supports H.265 and H.264 encoding as well as microSD cards with capacities up to 512 GB. The DDPAI Z90 2026 is equipped with a supercapacitor, a microphone, and a speaker, and uses a USB-C port for power. The dashcam can operate at temperatures ranging from -20°C to 70°C; its storage temperature range is from -40°C to 85°C, while the front module measures 83 × 57.5 × 46.3 mm and weighs 196 g.
