

LiberNovo Battery for Omni GEN, Omni Dynamic

Model: CP-GW-0000024-00-00

Manufacturer: LIBERNOVO

EAN: 6978343440071

Product Code: 939598

R1,958

LiberNovo Battery for Omni GEN / Omni Dynamic Ergonomic Chairs

The LiberNovo battery powers the electric functions of the Omni GEN and Omni Dynamic ergonomic chairs, allowing for convenient use of the lumbar support adjustment, spine stretching function, and seat ventilation system. It offers a capacity of 2200 mAh and supports charging via a USB-C port.

Powering the chair's most important functions

The battery powers the electric functions that enhance user comfort. It powers the precise lumbar support adjustment, the OmniStretch function—which performs a 5-minute spine-stretching cycle—and the active seat ventilation system. This allows you to use the chair's ergonomic features wherever you need them.

The product information provided is for reference purposes only. Technical specifications, photos, descriptions and prices may change without prior notice. Long battery life on a single charge

When using the active seat ventilation, the battery provides up to 36 hours of operation in low mode or up to 10 hours in high mode. A single full charge, which takes about 3.5 hours, is enough for up to about a month of using the spine-stretching function or even up to a year with daily use of the lumbar support adjustment.

Spare Battery - Even Greater Convenience

A spare battery allows you to use the chair continuously without interruptions for charging. Simply swap out the discharged battery for a charged one to immediately resume work or rest.

Manufacturer LiberNovo

Model CP-GW-0000024-00-00

Compatibility LiberNovo Omni GEN / Omni Dynamic ergonomic chairs

Color Gray

Charging port USB-C

Capacity 2200 mAh

Battery type Lithium-ion

Weight 0.23 kg
