

xTool SafetyPro AP2 Activated Carbon Filter

Model: P5010397

Manufacturer: XTOOL

EAN: 6928819530096

Product Code: 939797

R1,897

xTool SafetyPro™ AP2 Activated Carbon Filter

The xTool SafetyPro™ AP2 activated carbon filter removes harmful gases, vapors, and unpleasant odors generated during the device's operation. The activated carbon layer effectively captures formaldehyde, volatile organic compounds (VOCs), carbon monoxide (CO), sulfur dioxide (SO₂), and other gaseous pollutants that are not captured by standard dust filters. As a result, the air leaving the filtration system is cleaner, and working conditions become more comfortable.

High Performance and Long Service Life

The use of high-quality activated carbon ensures high pollutant absorption efficiency over a long period of time. The filter is designed for use in the xTool SafetyPro™ AP2 system and has an expected service life of up to 600 hours, which reduces the frequency of replacement and helps maintain high air purification efficiency.
