Maono AME2 sound card (black)

The Maono AME2 is a versatile and powerful sound card that will enhance the quality of your broadcasts and recordings with advanced features, intuitive operation and wide compatibility with various devices and microphones. It provides great audio quality and stands out with a runtime of up to 8 hours.

Made for streamers

The Maono AME2 sound card is a fully integrated audio production studio for streamers. It combines revolutionary features with excellent sound quality, unlimited customization and unparalleled ease of use. It is ideal for podcast recording, streaming, voice-over and content creation. In doing so, it features compatibility with PCs, smartphones, tablets and cameras, as well as Windows and Mac OS.

Premium sound

The AME2 has built-in high-quality preamps and supports phantom power, providing the best performance for XLR microphones. You also get a 3-position gain control function. The unit also provides ultra-low noise of up to 60 dB. It is also ideal for use with dynamic microphones such as the SM7B/SM58. In addition, a high-performance 32-bit chipset and DENOISE (noise reduction) function guarantee crystal clear sound.

Customize the sound to your expectations

The card offers 6 reverb modes, allowing you to customize its depth and timing. There are also 3 modifiable tones (high, mid and low), a 12-step autotune and tone-shifting knobs. What's more, each microphone input is controlled independently. Also noteworthy are professional features such as sidechain, music only and loopback.

Wide compatibility

The product can be connected to a computer or tablet via USB-C, to a studio monitor via MONITOR SPK, and to a smartphone or other devices via AUX-IN input. LIVE-OUTPUT1/2 outputs are also available for convenient podcast recording and streaming. The card also fits perfectly into many XLR microphones - both condenser and dynamic (6.35mm and 3.5mm). Note: USB-C microphones are not supported.

Included

- Sound card
- USB-A to USB-C charging cable
- TRRS 3.5mm audio cable x2
- User manual

Manufacturer	Maono
