R9,399

The WP-MEET03M enables effortless wireless presentations and collaboration. With plug-and-play USB-C connectivity, users can instantly share content in 4K without installing drivers or relying on complex networks. Built-in audio, support for popular conferencing platforms, and compatibility with large format displays, interactive displays and projectors make it the ideal solution for modern meeting rooms.

The product information provided is for reference purposes only. Technical specifications, photos, descriptions and prices may change without prior notice. The manufacturer and seller are not responsible for possible data discrepancies or typographical errors. We recommend checking the current information before purchasing.
