GameSir X3 Pro USB-C mobile controller with phone holder

GameSir X3 Pro is an advanced mobile controller that combines precise control with efficient cooling to provide optimal conditions for long gaming sessions. With a built-in, mobile USB-C connector, the controller is compatible with Android devices and the iPhone 15 series, and supports smartphones from 110 to 180 mm in length, making it compatible with most modern phones.

Advanced control technology

The controller features GameSir™ Hall Effect analog sticks that provide precise movements without drift, and responsive microswitch faders that offer fast response times. The Turbo function enables automatic, repeatable button presses, and a built-in 6-axis gyroscope improves control accuracy in games that require device movement.

Ergonomic design and durability

The GameSir X3 Pro weighs 322.2 grams, and its compact dimensions of 207.46 x 93.27 x 57.38 mm make it comfortable in the hands, even during longer sessions. In addition, the controller doesn't require its own power supply, drawing power directly from the connected smartphone, providing convenience of use without charging an additional device.
