

GL.iNet Opal Wi-Fi 5 Router

Model: GL-SFT1200

Manufacturer: GL.INET

EAN: 6971131382539

Product Code: 945382

R1,995

GL.iNet Opal (GL-SFT1200) Wi-Fi 5 Router

The GL.iNet Opal (GL-SFT1200) is a compact Wi-Fi 5 router offering a combined wireless speed of up to 1200 Mb/s, including up to 300 Mbps on the 2.4 GHz band and up to 867 Mbps on the 5 GHz band. Equipped with a powerful processor and 3 Gigabit Ethernet ports, it's ideal for apartments, dorms, offices, and while traveling. Its compact size makes it easy to transport, and the combination of high performance and security features allows you to comfortably use the Internet in a variety of settings.

Fast Network for Multiple Devices

The router ensures a stable connection while browsing the web, watching videos, working remotely, and performing everyday online activities. Gigabit Ethernet ports let you take full advantage of high-speed wired connections, and with support for up to 52 wireless devices simultaneously, Opal is ideal for environments where multiple devices access the Internet at the same time.

Security and privacy anywhere

Opal lets you create a private Wi-Fi network when using public hotspots, helping to enhance connection security in hotels, cafes, or airports. It supports OpenVPN and WireGuard®, works with over 30 VPN service providers, and allows you to set up your own VPN server using the Web UI 3.0 interface. Additionally, it supports Cloudflare DNS over TLS, encrypting DNS queries and helping to protect user privacy against eavesdropping and data manipulation.

Flexible connection methods and extensive configuration options

The device supports wired connections, repeater mode, 3G/4G USB modems, and tethering, making it easy to tailor your Internet access to your current needs. The repeater function allows you to use an existing wired or wireless network to create your own access point, which is useful both when traveling and when sharing the Internet with family, friends, or coworkers.

OpenWrt and high-performance VPN

The router runs on a modified version of OpenWrt 18.06, which combines simple setup with advanced customization options. The system supports over 5,000 pre-built plugins and apps, which can be managed from the admin panel. Opal also provides VPN throughput of up to 65 Mb/s for WireGuard® and up to 12 Mb/s for OpenVPN in client mode, enabling secure connections without sacrificing ease of use.

Manufacturer	GL.iNet
Model	GL-SFT1200
Interfaces	1 × Ethernet WAN port
	2 × Ethernet LAN ports
	1 × USB 2.0
	1 × USB-C (Type-C)
Processor Model	SF19A28
Number of Cores	2
Clock Speed	1 GHz
RAM	128 MB DDR3

The product information provided is for reference purposes only. Technical specifications, photos, descriptions and prices may change without prior notice. The manufacturer and seller are not responsible for possible data discrepancies or typographical errors. We recommend checking the current information before purchasing.

Flash Memory	128 MB SPI NAND Flash
Wi-Fi Standard	IEEE 802.11a/b/g/n/ac
2.4 GHz Wi-Fi Speed	Up to 300 Mb/s
5 GHz Wi-Fi Speed	Up to 867 Mb/s
Antennas	2 × external, non-removable Wi-Fi antennas
Ethernet Port Speed	10/100/1000 Mb/s
Power	USB-C (Type-C), 5 V / 3 A
Power consumption	6 W
Operating temperature	0°C to 40°C
Storage temperature	-20°C to 70°C
Dimensions	118 × 85 × 30 mm
Weight	145 g
