

YEALINK Handset IP W74H

Model: W74H IP

Manufacturer: YEALINK

Product Code: 945438

R2,326

The Yealink W74H cordless extension handset redefines standards of wireless communication with its robust features and durable design. It's powered by a 1010 mAh rechargeable lithium-ion battery, providing up to 320 hours of standby time and up to 1440 minutes of talk time, ensuring that you stay connected when it matters most. The handset boasts a 1.8-inch color LCD display, offering clear and vibrant visuals along with a backlit screen for ease of use in any lighting condition.

Audio quality is paramount, and the W74H excels with HD Voice and Flexible Noise Reduction technology, delivering clear sound by minimizing background noise. This handset is designed to streamline your communication needs, featuring comprehensive call management capabilities including Call Forwarding, Call Hold, Call Transfer, and Voice Mail. Additionally, the integration of Bluetooth and a 3.5 mm headset jack provides flexible connectivity options, making hands-free conversations effortless and efficient. With these features housed in a compact and lightweight design, the Yealink W74H is a choice for professionals seeking a reliable and high-performing communication solution.
