Short summary:

Dell 14 Premium

The Dell 14 Premium series delivers a powerful combination of mobility, performance and professional-grade capabilities. Powered by Intel Core Ultra processors with integrated AI acceleration, it enhances productivity, creativity, and responsiveness across modern workloads, including applications leveraging AI-assisted features.

Its compact and refined chassis is engineered with advanced thermal solutions, such as graphite thermal layers and liquid-crystal polymer fan technology, enabling sustained performance while maintaining a thin and lightweight form factor. Built from precision-machined aluminum and Gorilla Glass, the system achieves durability standards required for modern professional environments.

Designed for long-term reliability and sustainability, the Dell 14 Premium integrates low-emission aluminum, recycled plastics and recycled glass. Modular USB-C connectivity and service-friendly
