Manufacturer: GODOX

EAN: 6952344217825

Product Code: 963777

R1,837

GODOX X2T-P Trigger for Pentax

The GODOX X2T-P is a radio trigger that provides convenient and precise control over compatible flash units. It supports TTL flash, manual (M) mode, and stroboscopic (Multi) mode, while also offering synchronization with high-speed sync (HSS) and first- and second-curtain flash. With 2.4 GHz wireless connectivity, a range of up to 100 m, and support for 5 groups and 32 channels, this trigger is ideal for both studio and outdoor use.

Precise Lighting Control

The trigger is fully compatible with TTL automatic flash metering for Pentax cameras, allowing for convenient shooting in changing lighting conditions. Manual (M) and stroboscopic (Multi) modes are also available, allowing you to control the flash output yourself or use the multi-flash effect. Additionally, the unit allows for flash exposure compensation and manual flash power adjustment.

The product information provided is for reference purposes only. Technical specifications, photos, descriptions and prices may change without prior notice. The manufacturer and seller are not responsible for possible data discrepancies or typographical errors. We recommend checking the current information before purchasing.

Even Greater Creative Freedom

The X2T-P supports high-speed sync (HSS) as well as first- and second-curtain flash, providing greater flexibility when shooting. The built-in Bluetooth module enables connection to a smartphone and remote control of the strobes via the Godox app, available for Android and iOS devices. Select smartphone models also allow you to trigger the strobes the moment a photo is taken.

Clear Display and Convenient Operation

The LCD display makes it easy to check settings, and the compact design—measuring 7 × 7 × 5.8 cm and weighing 0.07 kg—makes the trigger convenient for transport and everyday use. Powered by two AA (R6) batteries, the device is quick to set up, and the 2.4 GHz frequency and range of up to 100 meters ensure stable communication with compatible strobes.

Manufacturer	GODOX
Model	X2T-P
Dimensions	7 × 7 × 5.8 cm
Weight	0.07 kg
Power Supply	2 × AA (R6) (not included)
Groups/Channels	5/32
Display	LCD
Frequency	2.4 GHz
Range	Up to 100 m
