Product Code: 963795

R1,958

GODOX X2T Flash Trigger

The GODOX X2T-N Flash Trigger for Nikon is a wireless transmitter operating on the 2.4 GHz band, which ensures stable communication with compatible flash units at distances of up to 100 meters. It supports TTL automatic exposure metering, manual (M) mode, stroboscopic (Multi) mode, high-speed sync (HSS) with fast shutter speeds, and first- and second-curtain flash. Additionally, it allows for manual adjustment of flash power and exposure compensation, making it easy to adapt the lighting to shooting conditions.

Smartphone Control

The GODOX X2T-N is equipped with a Bluetooth module that allows it to connect to the Godox app on Android and iOS devices. This lets you adjust the settings of compatible strobes from your smartphone without having to walk over to the shooting location. Select phone models also allow you to trigger the flash when taking a photo. The transmitter supports 32 channels and 5 groups,

which simplifies working with more complex lighting setups and helps reduce the risk of interference.

Compact Design and User-Friendly Operation

With compact dimensions of 7 × 7 × 5.8 cm and a light weight of just 70 g, the transmitter doesn’t weigh down the camera and fits easily into a camera bag. The easy-to-read LCD display makes it simple to check key settings, and the intuitive controls allow you to quickly set up your equipment. The transmitter is powered by two AA (R6) batteries, which are not included in the set and must be purchased separately.

Included in the set

- GODOX X2T Flash Trigger
- Manufacturer’s packaging

Manufacturer	GODOX
