GODOX SFUV5050 50x50 Softbox

The GODOX SFUV5050 50x50 Softbox is a practical kit designed for use with speedlight-type flash units. The set includes an S-type bracket with a standard Bowens mount, a foldable softbox measuring 50 × 50 cm, two diffusers, and a carrying bag. Its simple design allows you to quickly set up the kit for use, and its compatibility with speedlights from most brands and Bowens-mount accessories makes it a versatile solution for portrait, product, and outdoor photography.

Quick Setup

The kit is designed to minimize setup time. The S-type mount and foldable softbox require no complicated assembly, so the entire kit is ready to use in just a few moments. This is a convenient solution for those who frequently change locations or want to set up their shooting area efficiently.

The product information provided is for reference purposes only. Technical specifications, photos, descriptions and prices may change without prior notice. The manufacturer and seller are not responsible for possible data discrepancies or typographical errors. We recommend checking the current information before purchasing.

The compact design also makes it easy to store and transport the equipment.

Soft and Even Light

The 50 × 50 cm softbox effectively diffuses the light emitted by the flash, providing softer and more even illumination of the scene being photographed. The kit includes both an internal and an external diffuser, which help you control the quality of the light even better and minimize harsh shadows. This makes it much easier to achieve a more natural lighting effect. This solution is ideal for portrait and product photography, as well as other applications requiring soft light.

Convenient Adjustment

The mount allows you to freely rotate and tilt the entire assembly, including the lamp, 90° forward and backward. This makes it easy to adjust the direction of the light and tailor the setup to the scene being photographed. There is also a hole at the bottom of the mount for attaching an optional umbrella or other compatible accessory. This makes it easy to adapt the lighting setup to your current needs.

Included

- Bowens Type S mount
- Foldable 50 × 50 cm softbox
- Internal diffuser
- External diffuser
- Carrying bag

Manufacturer	GODOX
