GODOX TT520III Flash

The Godox TT520III flash is a versatile solution for photographers who value ease of use, reliability, and full control over lighting. The model offers a guide number of 33 (ISO 100, m), making it ideal for portrait, event, and product photography. In manual mode, there are 8 power levels adjustable from 1/128 to full power with precise 1/3 EV increments, allowing you to precisely adjust the flash intensity to any scene and consciously shape the character of your photos.

Flexible Triggering and Reliable Operation

The TT520III offers a wide range of flash triggering options, allowing you to easily adapt its operation to your photography setup. The flash can be mounted directly on the camera, used with an RT transmitter via its built-in 433 MHz receiver with 16 channels, utilize S1/S2 optical sync, or be connected via a sync cable. Powered by four AA NiMH rechargeable batteries, it delivers up to 400 full-power flashes, and a recycling time of approximately 1.8 seconds allows for smooth shooting of dynamic scenes.

Greater Freedom in Framing

The swivel head, adjustable from 0° to 330° horizontally and -7° to 120° vertically, makes it easy to use both direct flash and bounce techniques off walls or the ceiling. This allows you to achieve more natural, soft lighting and creatively shape the light in various conditions. An additional advantage is the short flash duration ranging from 1/510 to as fast as 1/31,000 of a second, which allows you to effectively freeze motion and capture sharp, detailed shots. The internal compartment for four AA NiMH batteries allows for quick battery replacement, which enhances comfort during longer photo sessions.

Included in the set

- flash unit
- RT wireless transmitter
- stand / foot for positioning the flash
- storage case
- user manual

Manufacturer	Godox
Model	TT520III
Compatible Cameras	Canon, Sony, Nikon, Fuji (with Godox Flash trigger)
Battery Life	3 hours
Camera Flash	Hot shoe (hot shoe)
Flash sync speed	1/250
Connectivity technology	Wireless, wired
Power supply	Battery-powered (AA)
Wireless communication technology	Radio frequency
Mount type	Electrically connected mount
Guide number (at ISO 100)	1 m

Box length: 21,50, Box width: 6,00, Box height: 10,50, Gross weight: 460, Net weight: 399, Set: Yes,
