

Aerocool Lux RGB 750W power supply unit Black

Model: AEROPGSLUXRGB-750

Manufacturer: AEROCOOL

EAN: 4718009153882

Product Code: 972019

R3,898

Addressable RGB Compatible

Stylize and personalize your lighting experience with 16.8 million colors by connecting your power supply to your Addressable RGB motherboard.

Stylish RGB Flow

The LUX RGB comes equipped with RGB LED Lighting to power your system while delivering a vivid stream of colors.

Bring your rig to life with 13 unique lighting effects that can be controlled via LED control button.

Improved Air Ventilation

30% Increased ventilation area in the body of the PSU allows for increased air flow and circulation, preventing your system from overheating.

Optimized Fan RPM

The product information provided is for reference purposes only. Technical specifications, photos, descriptions and prices may change without prior notice. The manufacturer and seller are not responsible for possible data discrepancies or typographical errors. We recommend checking the current information before purchasing.

itworkup.co.za | sales@itworkup.co.za | +27 (11)541-9950

12cm silent black fan with optimized thermal fan speed control. Fan runs at startup speed (less than 800RPM) before reaching 60% load at 25°C ambient temperatures

Convenient Cable Management

Soft, black, flat cables allow for more convenient cable management and easier installation.

Compatibility

Compatible with all Intel form factors up to ATX12V Ver.2.4.
