

MERACH MR- 2533B1-EU vibration platform (black)

Model: MR-2533B1-EU

Manufacturer: MERACH

EAN: 5905156103559

Product Code: 981138

R3,327

MERACH MR-2533B1 vibration platform (black)

The MERACH MR-2533B1 platform allows you to stay in shape, regenerate, and feel good without leaving your home. A wide range of intensities and three vibration zones allow you to tailor your workout to both light relaxation and more demanding exercises, while the stable construction ensures confidence in every position. The equipment supports body shaping, improves circulation, and relaxes muscles, making it ideal for use after training or after a long day at work. Its compact form and simple operation make the platform easy to fit into your daily home activity routine.

99 intensity levels - training tailored to your abilities

Whether you are just starting your adventure with physical activity or train regularly and expect greater challenges, the MERACH MR-2533B1 allows you to perfectly adjust the intensity to your

needs. A wide speed range from 1 to 99 allows for a smooth transition from gentle regeneration and relaxation, through effective fat burning and improved fitness, to intense strength training and advanced high-intensity sessions. One platform can serve as both rehabilitation equipment and a tool for building fitness at an increasingly higher level.

Deeper vibrations, faster results - up to 45% greater intensity

The advanced vibration system generates up to 45% deeper muscle stimulation compared to standard models. What does this mean in practice? More intense muscle fiber work, more effective stimulation of circulation, and better support for lymphatic drainage. Regular 20-minute sessions help reduce stiffness, support fat burning, and accelerate post-workout recovery.

Stability and safety - comfort in every position

The non-slip surface with clearly marked vibration zones provides secure support for classic exercises as well as yoga and stretching positions. The maximum load of up to 181 kg and the solid construction guarantee stability even at the highest intensity levels. The clear LED display remains clearly visible from every angle, so you always have full control over the time and settings.

Relief for your back and legs - recovery in 20 minutes a day

The platform is perfect for daily pain prevention. Just 20 minutes a day helps reduce tension in the back and leg muscles, improve flexibility, and restore ease of movement. It is the ideal solution for people who lead a sedentary lifestyle, do physical work, and anyone who wants to get back into shape faster after training.

Compact form, full mobility - exercise wherever you want

Weighing only 7.2 kg (15.9 lbs) and measuring only 12.5 cm in height, the platform can easily be slid under a bed or stored in a closet. The built-in handle makes it easy to carry, and the sleek, minimalist design makes it a perfect fit for any modern interior. This solution is designed for apartments where every inch of space counts. In addition, the MERACH MR-2533B1 offers 3 vibration zones and 150 W of power, and is equipped with an easy-to-read touch panel, remote control, and 5 automatic programs (P1-P5).
