

BenQ LW655C Standard throw projector 4000 ANSI lumens DLP WXGA (1280x800) White

Model: 9H.JV577.73E

Manufacturer: BENQ

EAN: 4718755098543

Product Code: 983522

R13,902

Always Connected, Always Up to Date

Direct Connection to BenQ QOTA Cloud

With the optional DM01 dongle, the LW655C becomes a connected projector. The DM01's enhanced chipset allows seamless connection to the BenQ QOTA cloud, enabling firmware updates directly from the projector without using a PC or USB drive.

Firmware OTA

Support on-device firmware update

The product information provided is for reference purposes only. Technical specifications, photos, descriptions and prices may change without prior notice. The manufacturer and seller are not responsible for possible data discrepancies or typographical errors. We recommend checking the current information before purchasing.

Expandable LAN Integration

Compatible with the optional DM01 dongle to provide an external RJ45 port for real-time firmware updates, with added wireless LAN connectivity

One Platform, Total Control

Manage Every BenQ Device with BenQ DMS

Once connected via DM01, monitor and manage all your BenQ devices through the BenQ Device Management System (DMS) software from your administration computer over your company LAN (DMS Local) — and stay connected even outside the office with the DMS App (DMS Cloud *). Gain complete visibility, centralized control, and seamless access from anywhere.

Casting Your Screen Wirelessly

Enjoy driver-free wireless casting with seamless support for iOS, Android, and Windows. Display up to Four devices at once with 4-way split screen for effortless collaboration.

Displayed exactly as intended

Selecting the right color mode ensures crisper, clearer images compared to a single default mode.

Presentation Mode

Optimized saturation for clear communication in slides, reports, and meeting content.

Video Conference Mode

Natural skin tones for a more professional look on camera.

High Detail Mode

Sharper contrast for diagrams, code, and blueprints.

DICOM Simulation Mode

Medical-grade accuracy when displaying digital images, with no loss of detail.

*DICOM Simulation mode is intended for training purposes only and not for medical diagnostic use.

High Reliability, Easy Maintenance

Laser Phosphor delivers up to 30,000 hours of reliable brightness with no lamp replacement. Durable, efficient, and mercury-free for a more eco-friendly workplace.

Projection Fits for Every Room

Project images larger than 100" from just 3.2m~3.5m away (via 1.1X zoom), enabling easy big-screen viewing in rooms of any size.

Flexible Installation and Connectivity

Experience seamless connectivity with our LW655C projector featuring two HDMI ports and two USB ports. It supports external Wi-Fi Screen Casting (e.g. QP30) and RJ45 adapters (e.g. DM01).
