The Neomounts monitor adapter kit, model FPMA-VESANON, is an innovative mounting solution for you to mount monitors without VESA compatibility to a monitor desk or wall mount. The adapter is designed to fit any VESA monitor mount with 75x75 and 100x100mm mounting holes.

The adapter uses a four-arm system to adjust to the different external dimensions of flat-panel monitors and clamp them in place securely. This adapter supports most 13-27" monitors with thickness of 25,5 to 45,5 mm. It allows your non-VESA monitor to be mounted on almost any ergonomic monitor arm and to be adjusted for improved viewing comfort.
