## R5,692

## 4K Camera with Intelligent Lighting for Small Rooms and WFH

The CAM130 is a 4K camera with intelligent lighting for use in small rooms and WFH. Embedded auto and preset framing can follow and capture meeting participants even when they’re wearing masks, saving time and enhancing meeting efficiency. Also, a built-in lens cover is designed to protect your privacy from hackers, and flexible mounts fit diverse usage scenarios. All that innovation adds up to brighter and better conferences.

## Professional 4K Camera Offers Lifelike Imaging

The CAM130 demonstrates vivid imaging even in complex light conditions with a 4K True WDR Sony Sensor. Equipped with high-performance imaging functions like auto exposure, white balance, backlight compensation, and dual-lens viewing angles (120° /90° ) for different using scenarios, the CAM130 makes a strong case for use in huddle room and WFH scenarios.

## Intelligent Lighting Automatically Adjusts to Fit Light Conditions

Establish an energetic and professional image in virtual meetings. When you’re working from home in a dim room, the camera offers full-range color temperature and automatic lighting level adjustments. The CAM130 ensures that you look great in any light.

## Lens Cover Secures Privacy in a Virtual World

Privacy matters! The CAM130 values your privacy with a built-in lens cover. No need to worry about network hackers anymore. Simply cover the lens to block the camera and keep personal information secure.

## Auto Framing That’s Easy to Use

Effortlessly conduct meetings with auto and preset framing. With the innovative SmartFrame function, the CAM130 smoothly follows and frames all participants on screen or a specific area. Highly improve meeting efficiency and create a quality conference experience.
