Model: ACA038EU

Manufacturer: TARGUS

EAN: 5051794008302

Product Code: 991603

R2,448

Expand your viewing options and improve productivity with the Targus USB 3.0 SuperSpeed Video Adapter. Quick and easy USB connectivity lets you instantly add a second monitor to your laptop. How you use it is up to you: extend your desktop onto the second monitor, mirror your laptop screen or switch off your laptop screen for a single, larger view. By providing visual access to two things at once – for example email and a spreadsheet – dual monitors eliminate the disruption and time lost when flipping between windows. The USB 3.0 video adapter connects one DVI-I or VGA monitor and supports HD video and graphics up to 2048 x 1152 resolution. DVI-I to VGA adapter and driver CD included.

The product information provided is for reference purposes only. Technical specifications, photos, descriptions and prices may change without prior notice. The manufacturer and seller are not responsible for possible data discrepancies or typographical errors. We recommend checking the current information before purchasing.
