

LANBERG rack cabinet 19inch free-standing 42U/800x1000 flat pack with mesh door black

Model: FF01-8042-23B

Manufacturer: LANBERG

EAN: 5901969428858

Product Code: 994039

R28,006

Lanberg's free standing cabinet FF01-8042-23B is a solution designed to expand networks, installation of cabling and equipment with a size of 19" and max. 800 kg of loading capacity. It can be used in networks, server rooms, small, medium businesses and data centers which needs lot of space in cabinet for network equipment.

On top of that, this particular cabinet can also work in low voltage systems, such as cable TV networks, alarm systems, fire protection and access control systems, CCTV or IP surveillance. Product construction is made of high grade cold rolled steel which is characterized by an excellent design and high quality of craftsmanship. The cabinet allows full adjustment of the depth of the vertical mounting rails. Additionally, it is equipped with front perforated door with lock and possibility of installing those doors on right or left-hand side.

Product Description: Lanberg - rack - 42U | Product Type: Rack | Rack Type: Cabinet | Built-in
