

UBIQUITI UCG- FIBER DESKTOP 10G CLOUD GATEWAY 4- PORT 2.5GBE

Model: UCG-FIBER

Manufacturer: UBIQUITI NETWORKS

EAN: 810177161288

Product Code: 995494

R7,957

The Ubiquiti UniFi Cloud Gateway Fiber is designed to enhance network performance with features tailored for comprehensive connectivity. Built with a quad-core CPU and supporting data link protocols like 10 Gigabit Ethernet and 2.5 Gigabit Ethernet, this device handles heavy traffic efficiently. Its 3 GB flash memory ensures rapid data processing, making it ideal for environments with numerous simultaneous users and managed devices. This desktop gateway supports up to 55000 IPS signatures and integrates security features such as an Intrusion Detection System (IDS) and Intrusion Prevention System (IPS), keeping your network protected against threats.

With a robust PoE+ capability of 30 W, the device supports 4-port switching while managing 500 simultaneous users and 50 devices effectively. Features like VPN support, VLAN segmentation, content filtering, and advanced QoS ensure smooth and secure connectivity. Its versatile design allows for Bluetooth management and multi-WAN load balancing, offering flexibility needed for modern networks while being cloud-managed for ease of use and monitoring.
