Liene Amber M210 4x6" 10-Sheet Photo Printer

The Liene Amber M210 4x6" photo printer is a compact photo printer that lets you quickly print photos directly from your smartphone. It connects wirelessly via Bluetooth, uses four-color dye-sublimation printing technology, and produces a finished print in less than a minute. It supports 10 × 15 cm photos, 7.7 × 7.7 cm square stickers, and also allows you to print photos onto documents. The dedicated Liene Photo app offers filters, collages, frames, and photo editing, and the built-in battery lets you print up to 40 photos on a single charge. The package includes 10 sheets of photo paper, so the device is ready to use right out of the box.

Vivid photos with natural color reproduction

The Liene Amber M210 uses dye-sublimation printing technology with four layers of dye, which ensures high detail, smooth tonal transitions, and natural colors. An additional protective layer increases the prints' resistance to fading, moisture, and wear and tear, ensuring that photos retain their aesthetic appeal for a long time.

Wireless Printing via Bluetooth

The printer communicates with your smartphone via a stable Bluetooth connection. Without the need for cables, you can quickly select a photo in the app and start printing directly from your phone.

Liene Photo app with editing features

The dedicated Liene Photo app not only lets you print photos but also edit them. Users have access to filters, collages, templates, decorative frames, and a feature for creating custom borders using AI. This makes preparing photos for printing quick and convenient.

Photos for documents without leaving home

The Liene Amber M210 is also ideal for preparing photos for official documents. The app offers ready-made templates that allow you to print photos in the 35 × 45 mm format, which meets the requirements for Polish ID cards, passports, and driver's licenses. This convenient solution lets you quickly prepare photos without having to visit a photo shop.

Built-in battery for mobile printing

The printer is equipped with a rechargeable battery that allows you to print up to 40 photos on a single charge. This means you can use it not only at home but also while traveling, at family gatherings, or at outdoor events.

Practical and well-thought-out design

The housing features a non-slip surface that improves the device's stability during operation. Additionally, the built-in accessory compartment makes it easy to store the kit's components and

helps keep things organized.

Auto-shutdown for energy savings

The automatic shut-off feature, which activates after a set period of inactivity, reduces energy consumption and extends the operating time on a single charge. This ensures the device is always ready for the next print job, and the battery doesn't drain unnecessarily.
