Lightning-Fast Wi-Fi Rivaling Ethernet

Enjoy an incredibly stable multi-gig connection that ensures seamless performance by aggregating multiple available bands. This requires the Wi-Fi router and the desktop system to both support the MLO feature. Dual-band aggregation is available (6 + 5 GHz, 6 + 2.4 GHz, or 5 + 2.4 GHz).

More Reliable Bluetooth 5.4

Enhance power efficiency and boost reliability with integrated Bluetooth 5.4. Experience longer battery life on your Bluetooth keyboards, mice, and headphones and enjoy reduced latency and fewer recharges.

Standard and Low-Profile Brackets Included

Suitable for both standard tower PCs and low-profile HTPC builds. Install the antennas and position
